

League School Excited to Embark on Strategic Planning Process

The League School is embarking on developing a strategic plan to position the school for future growth and continued excellence in educating students with Autism. Once developed, it will provide a two to three-year roadmap for the future. [Read more](#)

League School Selected to Assist with Individual Education Program (IEP) Improvement Project

The Department of Elementary and Secondary Education (DESE) selected the League School to assist them with their Individual Education Program (IEP) Improvement Project. After a rigorous application process, the agency selected the League School as one of three private schools, and the only school focused on the autism community, to help overhaul the IEP process.

Selected Record Management Platform to Improve Accuracy

and Communication

The League School has been relying on paper student records since its inception in 1966. This method has served us well, but we became aware that it was time to move into the 21st century. Chief Executive Officer, Larry Sauer, had begun looking at educational record management systems last year. After evaluating a number of options, he and other members of the team selected BlueStep data management solution. [Read More](#)

A group of students, ages 16-17, recently travelled to the Chamberlin International School to receive their Covid-19 vaccine. [Check out images](#) from their day and others from around League School.
